EXPERIENCE

Administrative Assistant

August 2026 – Present

University of Minnesota – Research Facility Support Services

Minneapolis, MN

- Serve as a first point of contact for faculty, staff, students, and visitors, providing professional assistance, directions, referrals, and responses to phone and email inquiries.
- Support daily front-desk operations by processing meeting and reservation requests, maintaining required logs, and keeping reception and lobby areas organized.
- Receive and document requests involving building access, repairs, maintenance, keys, equipment checkout, and other facility needs, routing issues to appropriate staff.
- Perform administrative tasks including data entry, word processing, filing, database updates, copying, inventory documentation, and preparation of facility notices and signs.
- Log, sort, and distribute incoming mail and packages while following departmental procedures and handling sensitive information with discretion.

Sales Associate

January 2025 – August 2026

Menards

Coon Rapids, MN

- Assisted homeowners, contractors, and builders with selecting and sourcing building materials across lumber, hardware, and construction supplies.
- Maintained inventory accuracy and ensured a safe, organized work environment.
- Collaborated with team members to resolve customer needs efficiently in a fast-paced environment.

Customer Service Associate

July 2024 – December 2024

Fleet Farm

Blaine, MN

- Processed customer returns and assisted with licensing transactions at the front end.
- Maintained front-end organization and accuracy to support efficient store operations.

Customer Service Associate

October 2021 – November 2023

Von Hanson's Meat Market

Blaine, MN

- Assisted customers in locating and selecting products across the store.
- Prepared and packaged hot foods, seasoned foods, and cut or sliced meats for sale.

TECHNICAL SKILLS

Programming Languages: Java, Python

Tools & Platforms: Microsoft Word, Excel, PowerPoint; Google Workspace, Gmail, Google Calendar, Google Docs; OneDrive

CERTIFICATIONS

- Cisco Certified: IT Essentials
- Cisco Certified: Cybersecurity

PROJECTS

Hunt the Wumpus

March 2026 – May 2026

Python / Artificial Intelligence Project

- Collaborated with a partner to design, implement, and test a modern Python version of the classic *Hunt the Wumpus* game.
- Developed cave exploration, player movement, environmental clues, hazards, and limited-resource mechanics requiring logical reasoning and strategic decision-making.
- Applied artificial intelligence and intelligent problem-solving concepts to create gameplay centered on interpreting incomplete information and planning actions.
- Integrated game mechanics and player interactions into an engaging, functional program while using collaborative development and testing to identify and resolve issues.
